

**Increase in the processing time for applications  
for business visas to Switzerland 20.05.2022**

In continuation of our [news](#) about the new conditions for issuing business visas to Switzerland, we inform you that consultants of Confidence Group received information about the increase in the time for consideration of documents for business visas for citizens of the Russian Federation. Such information has been received in formal correspondence with the Consulate of Switzerland in Moscow.

Previously, the average decision-making time for business visas for citizens of the Russian Federation was 5-6 working days (not taking into account the delivery of documents from the Visa Center and back). However, the Consulate reported that in the current realities it may take up to 10 working days to make a visa decision.

This situation was justified by the need for a "special Schengen consultation", in which all member states of the Schengen area take part.

For more information, please contact the consultants of the Confidence Group company.
